

PhD students seminars 2017

Aula seminari 3° piano IDRA - h 12.15

Date	PhD student	Title
05/04/2017	Andrea Franceschini	A robust multilevel approximate inverse preconditioner for symmetric positive definite matrices
10/05/2017	Mubashir Saleem	Application of Dynamic membrane in wastewater treatment
17/05/2017	Anisa Abazaj	Architettura residenziale edificata nel periodo del socialismo albanese 1945-1990. Linee guida per il recupero funzionale ed energetico.
21/06/2017	Mattia Pivato	Water and sediment temperature in shallow water environment: the effect of the extinction coefficient
28/06/2017	Laura Fiorin	Seismic behaviour of suspended ceiling systems
05/07/2017	Marta Ferrazzi	Anthropogenic impact on river flow regimes
12/07/2017	Silvia Garbin	A probabilistic approach to quantifying spatial patterns of flow regimes and network-scale connectivity
19/07/2017	Sergio Lopez Dubon	Chute Cutoff and Width Variations in River Meandering Evolution
26/07/2017	Victor Magri	Development of Scalable Linear Solvers for Engineering Applications
06/09/2017	Lorenzo Hofer	Seismic risk assessment and loss analysis for risk management and mitigation
20/09/2017	Giulia Cerminara	Denitrification potential of old landfill leachate after in situ aeration
27/09/2017	Michele Frizzarin	Damage Detection Based on Vibration Data
04/10/2017	Alessandro Sgarabotto	Modelling the plano-altimetric equilibrium morphology of tidal channels: interplay between sediment supply, sea-level rise, and vegetation growth
11/10/2017	Arianna Miniussi	Extreme Value Theory: MEV vs GEV
18/10/2017	Cyrille Tetouguen	Fatigue Behaviour of Bolted Joints In Steel Bridges
25/10/2017	Nicola Fabris	Recent Developments on the Maintenance Management of Existing Infrastructures
08/11/2017	Luigi Di Micco	The Neochord Mitral Valve Repair Procedure: Numerical Simulation.
15/11/2017	Chiara Favaretto	Development of a model for the assessment of coastal flooding vulnerability: implementation at the Venetian littoral
22/11/2017	Nico De Marchi	Multiphase modelling of geomaterials in large strains
29/11/2017	Giovanni Frison	Interazione fluido-struttura
