

PhD students seminars 2017

Aula seminari 3° piano IDRA - h 12.15

Date	PhD student	Title
4/5/2017	Andrea Franceschini	A robust multilevel approximate inverse preconditioner for symmetric positive definite matrices
5/10/2017	Mubashir Saleem	Application of Dynamic membrane in wastewater treatment
5/17/2017	Anisa Abazaj	Architettura residenziale edificata nel periodo del socialismo albanese 1945-1990. Linee guida per il recupero funzionale ed energetico.
6/21/2017	Mattia Pivato	Water and sediment temperature in shallow water environment: the effect of the extinction coefficient
6/28/2017	Laura Fiorin	Seismic behaviour of suspended ceiling systems
7/5/2017	Marta Ferrazzi	Anthropogenic impact on river flow regimes
7/12/2017	Silvia Garbin	A probabilistic approach to quantifying spatial patterns of flow regimes and network-scale connectivity
7/19/2017	Sergio Lopez Dubon	Chute Cutoff and Width Variations in River Meandering Evolution
7/26/2017	Victor Magri	Development of Scalable Linear Solvers for Engineering Applications
9/6/2017	Lorenzo Hofer	Seismic risk assessment and loss analysis for risk management and mitigation
9/13/2017	Valentina Grossule	Innovative management of semi aerobic landfill in tropical climate
9/20/2017	Giulia Cerminara	Denitrification potential of old landfill leachate after in situ aeration
9/27/2017	Michele Frizzarin	Damage Detection Based on Vibration Data
10/4/2017	Alessandro Sgarabotto	Modelling the plano-altimetric equilibrium morphology of tidal channels: interplay between sediment supply, sea-level rise, and vegetation growth
10/11/2017	Arianna Miniussi	Extreme Value Theory: MEV vs GEV
10/18/2017	Cyrille Tetouguen	Fatigue Behaviour of Bolted Joints In Steel Bridges
10/25/2017	Nicola Fabris	Recent Developments on the Maintenance Management of Existing Infrastructures
11/8/2017	Luigi Di Micco	The Neochord Mitral Valve Repair Procedure: Numerical Simulation.
11/15/2017	Chiara Favaretto	Development of a model for the assessment of coastal flooding vulnerability: implementation at the Venetian littoral
11/22/2017	Nico De Marchi	Multiphase modelling of geomaterials in large strains
11/29/2017	Giovanni Frison	Interazione fluido-struttura
